Magic with Magnets

Explore the fascinating properties of magnets! This 75-minute hands-on educational program will spark your child's curiosity and teach the basics of magnetic science. Children will participate in activities that combine fun with learning.

Tuesday, October 29
2:50 – 4:10 pm
Miller Avenue School
Grades 1–2

Wednesday, October 30
3:50 – 5:15 pm
Frank J. Carasiti Elementary
Grades 1–2

Super Circuits

In this 90-minute program we will explore the wonders of electricity through the hands-on construction of a simple circuit and explorations of insulators and conductors. Let us help you light up your life!

Tuesday, October 29
2:50 – 4:10 pm
Wading River Elementary
Grades 3–4

Wednesday, October 30
2:50 – 4:10 pm
J.A. Edgar Intermediate School
Grades 3–4

Tuesday, November 12
2:50 – 4:10 pm
Wading River Elementary
Grades 3–4

Wednesday, November 13
2:50 – 4:10 pm
J.A. Edgar Intermediate School
Grades 3–4

Fun with Forces

Have you ever thought about what riding your bicycle, running, throwing, wind, gravity, and falling have in common? The answer to those questions can be found through learning about forces. In this 75-minute hands-on program, young scientists will experiment to discover how forces and motion shape our world.

Tuesday, November 12
2:50 – 4:10 pm
Miller Avenue School
Grades 1–2

Wednesday, November 13
3:50 – 5:15 pm
Frank J Carasiti Elementary
Grades 1–2
