Forces for Fun: Building Roller Coasters! Grades 3-5

Monday, August 10 at 10:00AM

We will explore Newton's Laws of Motion and how we can use these to ensure our marble has enough energy to get round the track but does not go flying off. Your rollercoaster will not have an engine - so how do we need to design it to ensure that the marble keeps rolling? Where does your marble get its energy from? How could you give it more or less energy? What happens if you change the initial height of your rollercoaster?

A Zoom Meeting ID and Password will be emailed to all registrants prior to the program along with a list of suggested supplies to have on hand.
